

## Speed controller AR1.5

### ***Product description***

Electronic speed controllers AR1.5 is used to change rotation speed by changing supply voltage of motor without external connection.

Construction	Manufactured from plastic Variable speed control Protection class: IP44 Protection by fast current fuse
Installation	Mounting only for 1 phase motors, which supply voltage can be changed Mounting positions: any position Location: indoors
Power supply	230V-50/60Hz single phase
Current	1,5A
Temperature range	-25°C to + 35°C

DIMENSIONS [mm]				
Type	A [mm]	B [mm]	C [mm]	m [kg]
AR1.5	80	85	65	0,32
